Program Branch
Radar Operations Center
TOMA

1. SUBJECT

Inspection of On-site Pedestal Gearbox Oil and Transmitter Oil.

2. PURPOSE

To inspect the oil stored on site for the completion of the azimuth and elevation gearbox oil changes. Due to maintenance concerns, and the coloring of the oil containers, it has become necessary for each site to ensure they have the correct oil on hand. Each site should have synthetic gear oil for the gearbox oil changes and dielectric oil for the transmitter oil change. The 5-gallon containers for both oils are colored in a translucent color, making it easy to use the wrong oil. In the next procurement of dielectric oil for the transmitter, the container will be a blue color, and the synthetic gear oil will remain the same.

In addition to inspecting the gearbox and transmitter oil on hand, this is to remind sites to perform the PMIs stated in NWS EHB 6-503-2, AF TO 31P1-4-108-6WC-8 and FAA TI 6345.1 V4; 168 day PMI, card number 2-028; and 336 day PMI, card number 2-039. Performing the proper preventive maintenance to the gearboxes will help prevent premature failures. The oil used to perform the above referenced PMIs, should ONLY be purchased from the National Logistics Support Center.

For additional information concerning this document, contact the Radar Operations Center (ROC) Hotline, Norman, OK; phone number: (800) 643-3363 or (405) 366-2980 or by e-mail at NEXRAD.Hotline@noaa.gov. An electronic copy of this document can be found at the following internet address:

www.roc.noaa.gov/ssb/sysdoc/techman/tmlinks.asp

3. SITES AFFECTED

This maintenance action applies to all WSR-88D Radar Data Acquisition (RDA) sites. See ATTACHMENT 1 for a complete list of sites affected.

4. ESTIMATED COMPLETION DATE

This maintenance action must be completed and reported no later than 60 days after receipt of this document.

5. EQUIPMENT AFFECTED

Radar Data Acquisition Group.

6. SPARES AFFECTED

Nomenclature	Part Number	NSN
Oil, Lubricating, 5 Gal. Pedestal Gearbox	SCH75W	9150-01-418-8738
Oil, Lubricating, 1 Qt. Pedestal Gearbox	SCH75W	9150-93-000-0002
* Oil, Lubricating, Low Temp, 5 Gal. Pedestal Gearbox	TRIBOLUBE-L3-5	9150-01-389-2196
* Oil, Lubricating, Low Temp, 1 Qt. Pedestal Gearbox	TRIBOLUBE-L3-1	9150-01-310-5762

* For cold weather sites.

7. MODIFICATION ACCOMPLISHED BY

Site electronics technicians will perform this maintenance. One technician is required to perform this action.

8. MATERIAL REQUIRED

The following items are required to perform the azimuth and elevation gearbox oil changes. If these items, and the correct quantity is not located on site, ensure they are ordered and stocked.

Nomenclature	Part Number	NSN	QTY
* Oil, Lubricating, 5 Gal. Pedestal Gearbox	SCH75W	9150-01-418-8738	2
Oil, Lubricating, 1 Qt. Pedestal Gearbox	SCH75W	9150-93-000-0002	@
** Oil, Lubricating, Low Temp, 5 Gal. Pedestal Gearbox	TRIBOLUBE-L3-5	9150-01-389-2196	2
** Oil, Lubricating, Low Temp, 1 Qt. Pedestal Gearbox	TRIBOLUBE-L3-1	9150-01-310-5762	@

* Limited Phase Production sites require a quantity of 3 (15 Gal.)
** For cold weather sites.
@ Quarts may be used for convenience for topping off oil levels. Quantity is determined by site.

9. SOURCE OF MATERIALS

If the correct oil and quantity are not present on site, order the correct amount per paragraph 8 from the National Logistics Support Center (NLSC). The lubricating oil, part number SCH75W can only be purchased through the NLSC.

10. SPECIAL TOOLS AND TEST EQUIPMENT REQUIRED

Not applicable.

11. TIME AND PERSONNEL REQUIRED

Work Phases	Work-hours
Unpacking	0.0
Disassembly	0.0
Installation	0.0
Assembly	0.0
Operational Check	0.25
Total Work-hours	0.25

12. DOCUMENTS AFFECTED

Not applicable.

13. VERIFICATION STATEMENT

This modification was successfully completed at Radar Operations Center.

14. DISPOSITION OF REMOVED AND REPLACED PARTS/MATERIALS

Not applicable.

15. PROCEDURES

Ensure the oil located on site for changing the azimuth and elevation gearbox oil changes is the oil listed in paragraph 8. If not, order the correct oil from the NLSC before the next Preventive Maintenance Instruction (PMI) is completed.

16. FAA DISTRIBUTION

This directive is distributed to selected offices and services within Washington headquarters, the William J. Hughes Technical Center, the Mike Monroney Aeronautical Center, regional Airway Facilities divisions, and Airway Facilities field offices having the following facilities/equipment: NXRAD.

To obtain additional hard copies of this publication, contact Printing & Distribution Team, AMI-700B, at (405) 954-3771.

17. CHANGES TO TABLE OF CONTENTS (FAA)

This chapter will be included in the next revision to the table of contents for Order 6345.1, Electronic Equipment Modification Handbook - Next Generation Weather Radar (NEXRAD).

18. RECOMMENDATIONS FOR CHANGES (FAA)

Forward any recommendations for changes to this directive through normal channels to the National Airway Systems Engineering Division, AOS-200, Operational Support.

19. REPORTING INSTRUCTIONS

a. NWS

Report the completed modification using the Engineering Management Reporting System (EMRS) according to the instructions in NWS Instruction 30-2104, Maintenance Documentation, Part 4 and Appendix E. Include the following information on the EMRS report:

- An Equipment Code of RDA in Block 7.

- The appropriate serial number in Block 8.

- A Mod No. of M36 in Block 17a.

A sample EMRS report is provided as ATTACHMENT 3.

b. DoD

Update the AFTO Form 95 to show TCTO compliance. Report TCTO compliance in accordance with TO 00-20-2, Table 3-10, Rule 9.

c. FAA

Enter this directive number, date, and chapter number on the appropriate FAA Form 6032-1, Airway Facilities Modification Record.

Use the Maintenance Management System (MMS) application Log Equipment Modification (LEM) function to report the completion of this modification. Verify N is in the REP COD field to ensure the log entry will be upward reportable to the national data base for access by AOS. This directive should be entered into the LEM fields as follows:

(1) Order No.: 6345.1

(2) Chapter: 34

(3) Change: 37

d. DoD and FAA

Complete ATTACHMENT 2, and return the information to the ROC by one of the four methods below:

(1) Mail Address:	Program Branch, Retrofit Management Team WSR-88D Radar Operations Center 3200 Marshall Ave., Suite 101 Norman, Oklahoma 73072-8028
(2) Fax Number:	(405) 366-6553 ATTN: Retrofit Management Team
(3) E-mail Address:	NEXRAD.Logistics@noaa.gov
(4) Web Version:	http://www.roc.noaa.gov/ssb/logistics/completion.asp
